

# THE NEXT STAGE

Australia currently has a first year university drop-out rate of 22%. Our final year students need advice and guidance before they reach "*The Next Stage*"

Follow Scott, a "soon to be" Uni student, as he attempts to survive tertiary life — working through the maze of fees, part time work, contact hours, diaries, yearly planners, social life, responsibility and, most importantly, independent learning.

Created by a teacher with more than 20 years experience, "*The Next Stage*" is essential viewing for all final year high school students.

*Our final year students deserve our help to prepare them for life after high school*

"Many final year students complete their Secondary Education with unrealistic expectations of their future tertiary education. This DVD is an excellent way of providing an insight into tertiary life and how it differs from Secondary School.

I recommend it to schools as a valuable tool to help prepare young people for their future studies"

**R. Henderson**  
Vice Principal, Trinity College,  
Perth

"This new resource, a lively, professional production, covers the key aspects of the transition from secondary to tertiary education.

It is a must see for senior students."  
**Jan Saxon—Psychologist**

"I highly recommend "The Next Stage" DVD not only to Year 11 & 12 students but also parents and high school teachers.

The DVD is a valuable tool for helping school students realize and understand the complexity of the transition from high school to university, or tertiary education.

I believe audiences will find this DVD authentic in its portrayal of the issues to be dealt with when making a success of the first year at University."

**Anne Spinks—School Counsellor**

*"The Next Stage" and "Why TAFE" have been available in Australia for the past 6 months—the feedback from both staff and students has been excellent. We encourage you to allow your students to benefit from these DVD productions.*

# WHY TAFE

More and more people are going to TAFE .

It is vitally important for our final year students to be told about the differences between High School and TAFE. They need to know what to expect, what they need to do and how to prepare themselves for life after High School.

"Why TAFE" is an informative and breezy presentation showing the differences between High School and TAFE. Scott and Sarah find out about differences in classes, timetables, hours of work, juggling work and TAFE, responsibility , independent learning, different types of qualifications etc.

If we wish our young people to be able to cope with the demands of further education, it is essential that we are preparing them for it. "Why TAFE" will help them to better understand how to survive and succeed.

This DVD is designed to be generic enough to be in use all across the country. It does not tell students how to get into TAFE , it talks about the reality when they are there. Many schools have different subjects and TAFE components already available. This DVD is designed to reinforce the workings of TAFE and how our students need to be prepared for its challenges.

*TAFE courses, pre-apprenticeships and traineeships—accessing so many Industries. It takes hard work, perseverance and dedication to be successful in one's career, but most of all kids need to find that passion to want to succeed- this DVD could inspire one of your students to great things."*

**Mike Moore**

Former VET Coordinator/Deputy Principal, Kalbarri DHS

As this DVD “Why TAFE” is the latest addition to KPH Productions we are delighted to offer you a discount if you wish to purchase both DVDs. You can find out more about the DVD and how to order from our website. [www.kph.com.au](http://www.kph.com.au)

# THE NEXT STAGE

“The Next Stage” has been enthusiastically received in Australian Schools and Universities. Many teachers have said what a fantastic resource it is and have asked us to create a similar DVD for intending TAFE students. Well, here it is....

Introducing.....

# WHY TAFE

Both “The Next Stage” & “Why TAFE” are separate DVD presentations each of approximately 15 minutes duration. Further information [www.kph.com.au](http://www.kph.com.au)
